Bassam J. Al Eter

Airfield Operations Officer | Mechatronics Engineer | AI Automation Specialist
Lebanon | +961 81 417 207 | Bassameter005@gmail.com | bassameter.com | Arabic, English, French

Profile

Airfield Operations Officer with the Lebanese Air Force since 2020, mechatronics engineer and AI automation specialist, currently studying AI Engineering at Saint Joseph University (USJ). Experience covers air traffic control, airfield safety, NAVAIDS installation, industrial systems and technical teaching. Working toward AI engineering roles that apply automation and intelligent systems to operations, safety and education.

Experience

Airfield Operations Officer
Aug 2020 – present

Lebanese Armed Forces, Lebanese Air Force

- Oversee airfield operations and the firefighting unit; conduct safety inspections, develop emergency response plans and enforce safety regulations.
- Operate the DVOR navigation aid and perform first-line maintenance and troubleshooting, escalating to manufacturer technicians when needed.
- Provide technical support for runway and airfield systems.
- Designed a multi-level ATC training and qualification program and an airside vehicle operator certification program based on ICAO and FAA references; wrote SMS documentation and FOD prevention procedures.

AI Automation Specialist
Sep 2025 – present

USCHEED, Lebanon

- Design, build and optimize AI-driven workflows that reduce manual tasks, using prompt engineering, automation tools and system integrations.

Teacher
Sep 2024 – present

SUC College – Continuous Vocational Training, Lebanon

- Teach automotive engines, automotive electrical systems, AutoCAD and engineering drawing.

Project Coordinator
Jan 2025 – Jun 2025

Showcase Maintenance Group, Lebanon

- Planned, scheduled and tracked project execution; coordinated between teams and stakeholders.

Mechatronics Engineer, NAVAIDS Project
Jun 2022 – Feb 2024

Aviation Consulting Services, Beirut

- Supervised installation procedures and enforced safety standards.
- Deployed and configured VOR, ILS and DME equipment; implemented grounding procedures.

Liaison Officer
2023

UNIFIL Headquarters, Naqoura

- Facilitated communication and coordination between the Lebanese Air Force and UNIFIL in joint activities.

Remote Intern
Feb 2024 – Apr 2024

Adeeb Robotics, California, USA

- Worked on an industrial robotics project, developing AI models and training datasets; gained hands-on exposure to design and CNC technologies.

Intern
Feb 2024 – Mar 2024

Jallad Caterpillar, Zouk

- Assembled and dismantled diesel engines; diagnosed engine malfunctions and performed mechanical workshop tasks.

Intern
Jun 2023 – Aug 2023

Zeeny Steel, Kousba, El Koura

- Worked with PLCs and mechanical and hydraulic systems (Siemens and FESTO).

On-the-Job Training, Aircraft Maintenance
Jun 2023 – Aug 2023

Lebanese Air Force

- Studied aircraft mechanical and electrical systems; replaced and installed components; performed vibration tests on modified components.

Air Traffic Controller Aug 2018 – Jan 2020
Lebanese Air Force
- Issued clearances and traffic advisories to pilots in Class D airspace using radio communication equipment.

Education and Training

Diploma in AI Engineering (in progress) 2026 – present
Saint Joseph University (USJ), ESIB, Beirut

BSc in Mechatronics Engineering Aug 2023
American University of Science and Technology (AUST), Beirut

Diploma in Automotive Mechatronics Systems Apr – Sep 2024
Continuous Vocational Training Center, Tripoli

Airfield Operations Officer Course Jul 2020
Keesler Air Force Base, Mississippi, USA

Bachelor of Military Science Aug 2020
Lebanese Army Military Academy, Beirut

Air Traffic Control Qualification Jan 2019
Lebanese Air Force School

CCNA 1–4 2017
AZM University, Tripoli

Certifications

- Data Science Essentials with Python, Cisco (2026)
- Introduction to Data Science, Cisco (2026)
- Introduction to Cybersecurity, Cisco Networking Academy (2026)
- CTF Mini Training, Semicolon (2026)
- AI Automation Specialist, Quantum Base, Canada (2025)
- Art of Prompting, Quantum Base (2025)
- Elements of AI for Business, University of Helsinki & MinnaLearn (2025)
- Gear-Up Bootcamp, Eurisko Academy (2025)
- Fire Systems Design, Engineering Solutions (2025)
- Project Management, INJAZ (2025)
- Content Creation and Storytelling, QUAD (2025)
- Renewable Energy, IECD & Liban Cables (2024)
- Heavy Machinery Operator Licence: bulldozer, excavator, wheel loader, backhoe, basic motor grader (2024)
- UiPath RPA (2023)
- Port Logistics and Trade Operations, YEP MED, Escuela de Barcelona (2023)
- HCIA-AI, Huawei (2022)

Earlier activities: Work Success Boot Camp, Bank of Beirut & AMIDEAST (2016–2017); volunteer, UTOPIA (2014–2016); The Company Program, INJAZ Lebanon (2015); trainee, Lebanese Red Cross Peace Festival (2015); event planning, CROSSARTS (2014).

Skills

Aviation: Airfield management, tower and radar control, airfield safety and SMS, FOD prevention, NAVAIDS (DVOR, VOR, ILS, DME), training program design

Engineering: AutoCAD, Inventor, MATLAB, Proteus, Arduino, PLC (Siemens, FESTO), robotics, automotive systems

AI and automation: Python, C++, n8n, UiPath RPA, prompt engineering, LLM and RAG prototypes

Professional: Leadership and team building, operations management, technical reports, project coordination, teaching
